

# Unique Bioactive ingredients with proven efficacy

Stress management

Joint health

Blood sugar management

Immunity

Gut health

Bone health

## Your needs

Manage stress  
and/or  
improve sleep

Reduce joint  
inflammation

Maintain blood  
sugar levels within  
normal range

Boost immunity  
and gut health  
in just one step

Preserve  
bone health

## Our solutions

## In a nutshell

Stress can **impact our well-being** but also **disturb our sleep**. When chronic, it can impact **many other health fields**.

**LACTIUM®** is a casein hydrolysate which contains a bioactive decapeptide with **relaxing properties**.

Its efficacy has been proven in **9 clinical studies and 1 consumer study**, performed on **stress and sleep**.

**Joint pain** can **reduce your mobility**.

**XELFLEX®** is a milk protein hydrolysate from casein.

Its effectiveness on **joint inflammation** has been scientifically proven through **its inhibitory effect on inflammatory markers (cytokines)**.

With age and overweight, **disturbances in blood sugar levels** may arise.

**PEP2DIA®** is a whey hydrolysate with a bioactive dipeptide AP that **inhibits alpha glucosidase**, an enzyme in charge of breaking down complex sugars into glucose.

**PEP2DIA®** is **clinically proven** to **help reduce postprandial glycemia**. It helps maintain blood sugar levels within normal range.

**PROFERRIN®** is a **95% pure bovine lactoferrin** extracted from our premium French fresh cow's milk.

The efficacy of lactoferrin has been scientifically proven, with benefits on **immunity, gut and oral health**.

Often called « liquid gold », **colostrum** is produced by mammals in the first hours after giving birth. It contains lactoferrin but is also **rich with many other immunity and growth boosting compounds**: IgGs, IgAs, PRPs to name a few.

**PRODIET® COLOSTRUM** is a high-quality bovine colostrum with a **guaranteed level of IgG of 38% or 48%**.

Colostrum has shown real benefits on **immunity and gut health**.

**OSTEUM™ CPP** is a milk protein hydrolysate produced from our native micellar casein. **It has a guaranteed level of casein phosphopeptides of 35%**, among the highest levels on the market.

**OSTEUM™ CPP** is **efficient on bone health** by improving calcium absorption.
